Pay Attention!

Assignment Project Exam Help

- The quiz will be multiple choice. You get only one chance to answer a question. You cannot go back to an answered question.
- Use a piece of paper or an electronic pad to work on the question before you enter your answer.
- You get a total of 30 minutes to finish the quiz and you must start and finish during the allocated time. For example, assume the time allocated is between 06:00 am and 07:00 am: 1) if you start at 06:10 then you will have to finish no later than 06:40, but 2) if you start at 06:50 then you must still finish at 07:00
- The time allocation required for PMC students has been adjusted in CU Learn.

What Do I Study for Quiz 1?

Assignment Project Exam Help

- In general study everything up to and including the last lecture before the Quiz. Knowledge of material from Quiz 1 is also assumed.
- Material from lecture notes includes:
 1. Independent Sets
 2. Dominating Sets
 3. Traversals
 4. Locality
 5. Fault Tolerant Broadcasting
 6. Distributed Connections
 7. Message Passing
- **NB:** As a general rule, assignment questions are much harder than quiz questions.
